Full Stack Developer (Java, React) | Spring Boot | Hibernate | Microservices | REST APIs | React | TypeScript | JavaScript | Tailwind | MySQL | PostgreSQL | MongoDB | Docker | Jenkins | CI/CD | AWS (EC2, S3) | Git | JWT / Security

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable web applications using React and Java (Spring Boot). Experienced in designing RESTful APIs and microservices, working with MySQL, PostgreSQL, MongoDB, and Hibernate for efficient data management. Skilled in Dockerized deployments, CI/CD automation with Jenkins, and AWS cloud services including EC2 and S3. Focused on delivering secure, high-performance, and maintainable production systems aligned with business goals.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript
- **Frameworks & Libraries:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, React.js, Tailwind (CSS Framework)
- **Cloud Platforms:** AWS (EC2, S3, Elastic IP, App Runner)
- **Containers:** Docker
- **CI/CD & DevOps Tools:** Jenkins, Docker Hub
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Version Control:** Git, GitHub
- **Web Services & Protocols:** RESTful APIs, JSON, HTTP/HTTPS, CORS, JWT
- **Testing & Documentation:** JUnit, Postman, Swagger
- **Monitoring & Logging:** ELK Stack (Elasticsearch, Logstash, Kibana), Prometheus (basic), Grafana (basic)
- **IDEs & Tools:** IntelliJ IDEA, VS Code, Postman, Figma, MongoDB Compass
- **Agile Tools:** Jira

WORK EXPERIENCE

Full Stack Developer (Java + React)

Zivoke Tech Labs Private Limited – Jun 2025 to Present

- Developed a healthcare management application using React/Next.js and Spring Boot, building secure RESTful APIs and role-based access workflows
- Designed and built an internal client portal for meetings, document sharing, and support desk operations using Spring Boot, MongoDB, and React
- Developed reusable React components with Hooks and modern JavaScript to improve performance and maintainability
- Built scalable backend services with Spring Boot handling authentication, file storage, and real-time workflows
- Containerized applications with Docker and automated CI/CD using Jenkins and Docker Hub
- Deployed production systems on AWS EC2 with S3 storage; configured Nginx, Cloudflare, and Elastic IP for domain routing and HTTPS
- Integrated Resend (email), Infisical (secrets management), optimized MongoDB queries, and supported Agile-based releases and monitoring

Full Stack Developer (Java + React)

TGK Streamline Solutions – Jan 2023 to May 2025

- Developed and deployed Spring Boot microservices and RESTful APIs for enterprise modules including product catalog, authentication, and payments
- Built responsive React.js frontend components using JavaScript, HTML5, CSS3, and React Hooks to improve performance and maintainability
- Implemented JWT-based authentication and Spring Security for secure APIs and role-based access control
- Containerized applications with Docker and deployed on AWS EC2, automating CI/CD pipelines using Jenkins and GitHub Actions
- Integrated MySQL and Oracle using Hibernate/Spring Data JPA, optimizing queries with indexing and caching

- Practiced Agile with Jira and TDD using JUnit, Mockito, REST Assured, Postman, and Swagger for testing and documentation

EDUCATION

B.E – Computer Science and Engineering July 2019 – May 2023

Velalar College of Engineering and Technology, Erode

CGPA: 8.31 / 10

HSC – TNK Matric Hr. Sec School, Erode June 2018 – April 2019

PERCENTAGE: 72%

SSLC – TNK Matric Hr. Sec School, Erode June 2016 – April 2017

PERCENTAGE: 85.8%

AREA OF EXPERTISE

- Spring Boot & Microservices Architecture
- REST API Design & Integration
- React.js Frontend Development
- JavaScript (ES6+), TypeScript, HTML5 & CSS3
- React Hooks & Component-Based Architecture
- Hibernate & JPA ORM
- SQL Query Optimization (MySQL, PostgreSQL, Oracle, MongoDB)
- Spring Security & JWT Authentication
- Docker Containerization & CI/CD Automation with Jenkins
- AWS Cloud Services (EC2, S3, App Runner)
- Git, GitHub & Version Control
- API Testing with Postman & Swagger/OpenAPI
